

How to install the BA 704 adapter?

Each BA 704 adapter comes with: 1 modular cable, 1 RCA audio cable, and 2 line splitters.

- 1 Connect the modular cable on your phone to the part identified as Lines 1, 2, 3 out in the adapter.
- 2 Connect one end of the modular cable that we sent you to the part identified as Lines 1, 2, 3 in on the adapter. Install the opposite end to the spot where you had the modular cable connected to your telephone.
- 3 If you have more than two phone numbers, connect one end of the modular cable to the part identified as Lines 3, 4 in of the special adapter, and the other one to your phone.
- 4 Connect one end of the RCA audio cable to the place identified as audio in on the adapter. Install the other end to our audio playback machine.
- 5 5. Connect the adapter to the power outlet 120 VAC, and you're done.
